# The Weather Stopper® Integrated Roofing System™

## Leak Barrier

**Weather Watch®** and **StormGuard®** provide exceptional protection against leaks caused by property movement and extreme weather. Recommended at all vulnerable areas of your roof (see usage chart on page 4).

## Roof Deck Protection

Premium, "breathable" **Deck-Armor™** allows moisture to escape from your attic while providing the very best protection against wind-driven rain. **Shingle-Mate®** and **Leatherback®** (available regionally) are also great choices.

## Quality Shingles

Choosing the right shingle can increase the value of your home. GAF offers you many great premium choices including **Timberline®**, the #1-selling architectural shingles in North America.

## Effective Attic Ventilation

**Cobra®** and **Master Flow®** vents help remove excess heat and moisture from your attic that can raise your energy bills, cause premature peeling of paint and wallpaper, and even affect your health.

## Distinctive Ridge Cap Shingles

Similar to the way that a distinctive frame enhances a painting, **Timbertex®** and **PacificRidge™** can enhance the beauty and value of your home—while guarding against leaks at the hips and ridges.

## Reliable Low-Slope Membranes

**Liberty™** commercial-grade self-adhering roofing systems are exceptionally dependable! They're safer too, because no open torches or hot asphalt are used.

## Pre-Cut Starter Strip Shingles

**GAF's** Pre-Cut Starter Strip Shingles save time, eliminate waste, and reduce the risk of blow-off by tightly locking the starter strip in place on your roof.

## Premium Skylights

**HeavenScape®** premium skylights add the beauty of natural light to the interior of your home... with quality construction and protection you can trust.
